Questions about Impact Report

Page 6: "CSC Leon provided services to 126,399 children, youth, and families across Leon County."

Please review the data below.

301,724 Leon County residents

45,669 over age 65 95% not candidates for CSC services = 43,386

29,824 age 55 – 64 90% not candidates for CSC services= 26,842

67,164 students 90% not candidates for CSC services = 60,448

When the people who do not need CSC services are subtracted, only 171,048 people are children or adults who may have children.

How does the CSC serve 126,399 families when only 171,048 people are children or adults who may have children?

Is every touchpoint of every person counted as a family?

If a family has four children who utilize four services each, is one family counted 16 times?

Page 8: "88% of pre-K students made measurable cognitive gains in self-regulation and learning skills."

What are these skills, what was the baseline, and how were they measured?

Page 12: "70% of families made gains in their self-resiliency."

What are the self-resiliency components and how are they measured?
